WEB DEVELOPMENT SKILLS

Frontend: React, JSX, JavaScript, jQuery, HTML, CSS | **Backend:** NodeJS, Express, Restful APIs, JSON

Databases: MongoDB, MySQL

Cloud/Tools: GitHub, Git, VS Code, Azure, AWS, Render

UI/UX: Responsive layouts, web accessibility, Figma prototyping, and wireframe creation

TECHNICAL WORK EXPERIENCE

Internet Security Alliance - Executive Assistant & Office Manager **June 2026 - Present**

- Lead ISA's WordPress website redevelopment, improving structure, usability, and visual design.
- Manage ongoing digital maintenance, content updates, and UI improvements.

Webstitch, LLC - Co-Founder & Full-Stack Developer - <https://www.webstitch.dev> **May 2025 - Present**

- Co-founded a freelance web development studio to offer website services, such as custom web-development & design, fixing-up existing websites, e-commerce, and other services tailored to the client.
- Developed the official *webstitch* website using React JSX, CSS, custom animations, focusing on modern UI/UX design and interactive elements.

Coalfire Systems, Inc. - FedRAMP/NIST Advisory Intern **May - Aug 2024**

- Researched and presented findings on achieving FedRAMP compliance for backend web apps using AWS
- Acquired the Certificate of Cloud Security Knowledge (CCSK)

BlueCross BlueShield of South Carolina - IT Summer Intern (Process Audit Team) **May - Aug 2023**

- Created a SharePoint site for the Governance committees to use as a modernized repository
- Analyzed data with Power Query & Access; Assisted Tech Owners/System Managers with the Excel data

Virginia Head and Neck Surgeons - Administrative Assistant **May 2022 - June 2026**

- Assisted with website updates by strategically putting together content to display on webpages while improving structure and keeping the content up-to-date.
 - Conducted monthly revenue data analysis using Excel Power Query and Pivot Tables.
-

PROJECTS

My Personal Web Portfolio | <https://jenna-stover.github.io/MyWebPortfolio/>

Frontend web application showcasing my web development skills and projects; displays all below projects.

Tech Stack: React, JSX, CSS, and Git

VacationPlanner Capgemini Web Application (Capstone I & II)

A full-stack vacation booking web application made for Capgemini. Integrated OpenAI, APIs for listing/booking data, MongoDB, and adhering to RESTful principles and HTTP methods.

Tech Stack: React, JSX, CSS, Axios, React Router DOM(frontend), & Java, Spring Boot(backend), Git. Deployed via Azure.

DegreePlanner Team Project (CSCE 247 - Software Engineering)

Collaborated on recreating UofSC's 'DegreeWorks' website. Created use-cases, a UML class diagram, and a wireframe. Constructed and connected to JSON files for data.

Tech Stack: SceneBuilder, JavaFX, FXML(UI development), Java, and Git

Application Organizer (CSCE 242 - Web Applications)

Developed a full-stack web app to keep track of job prospects (progress bar) and monitor application completion- GET, POST, PUT, DELETE functionality.

Tech Stack: JavaScript, HTML, CSS(frontend), and MongoDB, NodeJS, Express(backend), Git. Deployed via Render.

Product List with Cart (Junior Challenge from [Frontend Mentor](#))

A frontend web application which showcases a product list with cart functionality. UI is dynamically populated with the JSON file provided by *Frontend Mentor*.

Tech Stack: React, JSX, CSS, Axios, and Git

EDUCATION

University of South Carolina - Columbia, Overall GPA: 3.807, Graduated Magna Cum Laude

May 2025

Degree: Bachelor of Science | *Major:* Computer Information Systems | *Minor:* Business Information Management

Awards/Honors: President's List - Freshman year | Dean's List - Sophomore year, Junior year, Senior year
